The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot. f6-1y

Our Country.

BY W. J. PEABODY, ESQ.

Our country!—'tis a glorious land—
With broad arms stretched from shore to shore
The proud Pacific chafes her strand,
She hears the dark Atlantic roar;
And nurtured on her ample breast,
How many a goodly prospect lies
In Nature's wildest grandeur drest,
Enameled with the loviest dyes.

Rich prairies, decked with flowers of gold,
Like sunlit oceans roll afar;
Broad lakes her azure heavens behold,
Reflecting clear each trembling star,
And mighty rivers, mountain-born,
Go sweeping onward, dark and deep,
Through forests where the bounding fawn
Beneath their sheltering branches leap.

And cradled 'mid her clustering hills,
Sweet vales in dream-like beauty hide,
Where love the air with music fills,
And calm content and peace abide;
For plenty here her fullness pours,
In rich profusion o'er the land,
And, sent to seize her generous stores,
There prowls no tyrant's hireling band.

Great God! we thank Thee for this home—
This bounteous birthland of the free;
Where wanderers from afar may come,
And breathe the air of liberty!—
Still may her flowers untrammeled spring,
Her harvests wave, her cities rise;
And yet till Time shall fold his wing,
Remain Earth's loviest paradise!

STIMULANT.—George D. Prentice has been a constant drinker for forty years. For ten years he has been a drinker of the lignum vitæ order. Here is a temperance lecture by him; worth a score, at least, of the Good Templar exhortations and misrepresentations:

"There are times when the pulse lies low in the bosom and beats low in the veins; when the spirit sleeps, which, apparently knows no waking, sleeps in its house of clay, and the windows are shut, the doors hung in the visible crape of melancholy; when we wish the golden sunshine pitchy darkness and wish to fancy clouds where no clouds be. This is a state of sickness when physic may be thrown to the dogs, for we wish none of it. What shall raise the spirit? What shall make the heart beat music again, and the pulses through all the myriads thronged halls in the house of life! What shall make the sun kiss the eastern hills again for us with all his old awakening gladness, and the night overflow with moonlight, love and flowers? Love itself is the greatest stimulant—the most intoxicating of all, and performs all these miracles, and is a miracle itself and is not at the drug store whatever they say. The counterfeit is in the market, but the winged God is not a money-changer, we assure you.

"Men have tried things, but still they ask for a stimulant.

"Men try to bury the floating dead of their own souls in the wine cup, but the corpse rises. We see their faces in the bubbles. The intoxication of drink sets the world whirling again, and the pulses to playing music and the thoughts galloping, but the fast clock runs down sooner, and an unnatural stimulant only leaves the house it filled with the wildest revelry, more silent, more sad, more deserted.

"There is only one stimulant that never intoxicates, duty. Duty puts a clear sky over every man into which the skylark, happiness, always goes singing."

COOLIE LABORERS.—We invite the attention of our readers to the following telegraphic dispatch, clipped from the San Francisco *Herald* of June 24th:

"MEMPHIS, June 23.—A convention will be held in this city on the 13th, composed of leading citizens of West Tennessee, North Alabama, Mississippi and Kansas to devise and adopt measures to secure the introduction of Chinese labor into the States named. It is believed that provision can be made for the immediate importation of three hundred thousand *coolies*, via the Pacific Railroad, the present year. Propositions will be submitted to transport Coolies via the Isthmus, and there to New Orleans and up the river."

We regard it as quite certain that the movement making in favor of the introduction of three hundred thousand *Coolies* into the States of Tennessee, Alabama, Mississippi and Kansas, is headed by radical carpet-baggers. The freed negroes will not work; the people of the States named are compelled to have other laborers. This movement evidently favors the idea that Chinese slaves or *coolies* are to take the places of the Africans freed by President Lincoln.

It will not do to charge that Democrats are at the head of this movement in favor of importing coolie laborers into the States named, for the reason that they are politically powerless, and certainly would not head a movement which must signally fail, if not approved of and sustained by a majority of the people. The National Anti-Slavery Association must have another meeting, to give consideration to this coolie movement. —*Examiner.*

OLIVE LOGAN ON TROWSERS.—The N. Y. *Sun* reports Miss Olive Logan's speech at the woman's meeting at Brooklyn as follows:

I reject the trowsers with contempt and scorn. Men cut a sufficiently ridiculous figure in them themselves. The trouble is they don't like their own costume, and are envious of our laces, jewelry, frills and dresses. "Trowsers, forsooth trowsers!" Shake not your ridiculous garment at me. No, so long as we can have our silks, satins and shawls, we will repudiate your bifurcated unwhisperables. Look at your swallowtail coats, stove-pipe hats; and you wear your hair so short, some of you, that you look precisely like monkeys, and I don't wonder that one of your number has written a book showing that animal to have been the father of your race.

"DO YOU THINK, Doctor," said an anxious mother, "that it would improve little Johnny's health to take him to the springs and let him try the water?" "I haven't a doubt of it, madam." "What springs would you recommend, Doctor?" "Any springs, madam, where you find plenty of soap."

How fast they build houses now!" said H. "They began that building last week, and now they are putting in the lights.' "Yes," answered his friend, "and next week they will put in the liver."

McNeil Butchery at Palmyra.

[From the Glasgow (Mo.) Herald.]

So long as God gives us life, and the earth is cursed with the presence of McNeil, we feel it our solemn duty to rehearse, once every year, the story of the most atrocious and horrible occurrences in the annals of barbarous warfare. On the 17th day of October, 1862, a deed was enacted at the Fair Grounds at Palmyra, Missouri, which sent a thrill of horror throughout the civilized world. Ten brave and true and innocent men were taken from their prison, driven to the edge of town, seated on their rough board coffins, and for no crime of their own, murdered like so many swine—murdered! butchered!—by the old blotch upon creation's face, John McNeil, now by the grace of bayonet's, Tom Fletcher and the Devil, is Sheriff of St. Louis county, and a Jacobin in full fellowship.

There was our poor, handsome, gallant boyhood friend, Tom Sidener, as pure a soul as ever winged its flight from blood-stained sod to that God who will yet, to all eternity, damn the fiendish butcherer, McNeil! Poor Tom was a model paragon of manly grace and beauty. So exquisitely formed, features so perfect and so fair; so brave and yet so gentle, that even the vile reptile, Winchell, now editor of the Hannibal *Courier*, said that "in his beauty and his wickedness he reminded him of Absalom." Poor fellow! He was engaged to be married to a young lady in Monroe county. When he learned he was to be shot, he sent for his wedding suit, which had just been made, declaring that if he could not be married in it, he intended to die in it. Arrayed in his elegant black broad-cloth, and his white silk vest, when he mounted his coarse plank coffin in the wagon that bore him to his death, he looked as if he were going to be married instead of shot. The very guards cried like children when they bade him good-bye. Raising his cap and bowing to the weeping women who lined the streets, he was driven from their sight forever. Half an hour afterwards, six musket balls pierced his noble heart, and his white silk wedding vest was torn and dyed in his martyr blood.

There was poor old Willis Baker, his head whitened with the snows of more than seventy winters. Heroic old man! With his white hair streaming in the wind, he seated himself on his rude coffin, and died without a shudder, refusing with his last breath to forgive his executioners, swearing if it were possible he would go to hell to torment them to all eternity.

There was that helpless, half-idiot boy from Lewis county, who allowed himself to be blindfolded, then hearing Sidener and the others refuse, slipped up one corner of the bandage, and seeing the others with their eyes uncovered, removed the handkerchief from his own, and died innocent as a lamb.

There was Humstead, and Bixler and McPheeters—and there was that most wonderful martyr of all, young Smith, of Knox county, who died for another man. Humphrey was the man. His heart-broken wife, in widow's weeds, with her helpless little children, in deep mourning, that was only less black than the anguish they endured, or the heart of him to whom she appealed, rushed to the feet of tyrant McNeil, and in accents so piteous, that a soul of adamant must have melted under it, besought him for the life of her husband. She was brutally repulsed. But Strachan, the monster of Shelby county, whom the angel of God, a few months afterwards, smote with Herodian rottenness and worms—Strachan, whose flesh literally putrified and fell from his living skeleton at New Orleans—Strachan, who has long been paying in the deepest, blackest, hottest hole in perdition, the penalty of his forty ply damnation deserving crimes, was Provost-Marshal. He saw the frantic agony of the woman; called her into his office and told her that he would save her husband if she would give him three hundred dollars, and then submit—but oh! humanity shudders, sickens at the horrid proposal! The wretched, half-crazed, agonized wife, not knowing what she did, acceded to save her husband's life. And the next morning she was found lying insane and nearly dead, with her babe at her breast, near the public spring at Palmyra. After all this, her husband was only released on condition that another should be shot in his place.

Young Smith was selected. And then ensued a contest without a parallel in all the six thousand years of human history. Humphrey refused to let any man die in his stead; declared he should feel himself a murderer if he did. Smith protested that he was only a poor orphan boy, and so far as he knew there was not a soul on earth to grieve for him; that Humphrey had a large family entirely dependant on him for daily bread, and it was his duty to live while he could. And Smith, the simple country lad, only seventeen years old, the hero without a peer on all Fame's mighty scroll, took his seat on his rough box—and was shot.

We might dwell for hours on the incidents connected with the most frightful butchery of ancient or modern ages. But why go on? The murder was done? The Confederate Government talked of demanding the murderer McNeil. Then a "memorial" was gotten up, and signed by two thousand Missourians, recommending the accursed old monster on account of his Palmyra massacre to the especial favor of Abe Lincoln. And he was promoted to a Brigadier-Generalship.

The green sod of the Palmyra Fair Grounds long since drank up the life-blood of the ten innocent heroic hearts. The melancholy elms wave their darks boughs peacefully over the scene of the terrible tragedy. The last time we saw the place the plow had turned up a part of the historic grounds, and the green corn glittered in the sunlight where once the murderer's musket gleamed. All traces of the fearful crime had faded from the spot, and everything was quiet, serene and beautiful as of yore. But until the heavens are rolled away as a scroll, and the great Archangel sounds the knell of Time, the blood-spots of the Palmyra massacre will stand out deep, dark and ineffaceable upon the record of Earth's direst horrors. Its frightful memories can never, should never die! Generation after generation should repeat the story; mothers should teach it to their children, and the names of McNeil and Strachan should be execrated to all eternity.

A Story of Terrible Suffering.

The following extraordinary tale of a shipwrecked crew, and the terrible fate of all except a single survivor, whose adventures equal those of Robinson Crusoe, appeared in a Paris letter to the New Orleans *Picayune:*

In the month of August, 1863, the French ship Adelina Eliza quitted Bordeaux for Hong Kong. A month afterwards she was spoken off Cape Good Hope. She was never heard of again until a few days since, when her history and the history of all her crew became public. A typhoon in the Indian Ocean threw her out of her course, dismasted her, broke her rudder, and tossed her towards Oceanica. Bad weather lasted thirty days, and when fair weather returned, she struck upon a coral reef, and the exhausted crew were scarcely able to take refuge in boats. It was a moonless, starless night when this accident occurred. They rowed wildly, and thanked God when the breaking day showed them a harbor surrounded by a charming landscape. They reached land and lay down to sleep. When they awoke they found themselves bound hand and foot, and surrounded by savages. Their captors proved to be cannibals. Eleven of them, their Captain included, were slain and eaten. Three others contrived to make their escape, but they were mutilated. The one who has succeeded in reaching Europe has one arm cut off and one eye torn out. The three reached a remote part of the island, where they found a canoe and embarked in it, preferring the risk of being devoured by sharks to the certainty of being killed and eaten by cannibals. Fortunately they found themselves in an archipelago, and were enabled to go easily from one island to another. After wandering for some time, moving as rapidly as possible away from the cannibals' home, George Samazon's two companions died of exhaustion. He remained alone, mutilated, hopeless, upon a frail canoe. He, nevertheless, continued to push on, touching land only when absolutely necessary to sleep and to get water and food. He ate shell-fish and roots. One day he reached the last island of the group, and nothing lay before him but the wide ocean. He set to work to build a raft. It took him a year. He launched it. The waves threw it back on the island. He several times tried to put it out to sea, but constantly failed. He resolved to turn his footsteps landward, but in a different direction from the cannibals' home. He climbed a mountain, crossed a desert, and fell again into savage hands, once more escaped from them, fled through forests; his feet were bitten by venemous insects, his face scabbed with the bites of mosquitoes; at last, nearer dead than alive, he came upon white men. He had been walking for three years, and had crossed South America on foot! The white men received him kindly, and did what they could for him. He embarked upon a small Portuguese ship, and at last reached Europe. His family had long given him up for dead.

HOW RAIN IS PRODUCED.—Where does the rain come from? "From the clouds." But where do the clouds come from? You may think the wind blows them over you. But if it blows clouds over you from somewhere else, it also blows them from over you to other places. The fact is the water of the clouds is as much over you on a clear day as on a cloudy or rainy day. On a fair day when no clouds are seen, the water is divided up into such small particles that it does not obstruct the sun's light, and so you see no clouds or water. A change of temperature in the atmosphere, as when a warmer and colder current of air meet, causes the small particles of air to unite in pairs, and the pairs unite, and these, quadruple drops unite, and so on until hundreds of thousands of the small invisible particles unite in one, and even then that one may be many times smaller than a pin's head. A mass of these combined drops which are still small enough to float in the air, reflects, refracts, or bends out of their course so many of the sun's rays that they stop and often darken its light. It is thus that clouds gather in a clear sky. When a sufficient number of drops unite and form one too heavy to float in the air, it begins to fall. It meets and unites with many others in falling, and often so many unite that great rain drops are formed by the time they get to the ground. Each large drop is made up of thousands, perhaps millions of the small drops that float in the unseen air in a clear sky.

FRONT SEATS FOR NEGROES.—Telegraphic dispatches to the San Francisco *Herald*, dated Washington, June 4th, read as follows:

"The Councilmen of this city have passed an ordinance prohibiting the managers of places of amusement from refusing entrance to negroes to any part of their houses of entertainment. The ordinance will probably be signed. The managers propose to contest the validity of the ordinance, and some of the ablest lawyers deny its legality.

"A strike of the bricklayers in the Navy Yard at this place is imminent, in consequence of the employment of two negroes in the yard."

The city ordinance above referred to was approved by the Mayor on the 4th instant. The negroes are now in the majority in the city of Washington—the seat of Government of the United States—and there, sustained as they are by unjust acts passed by a Radical majority in Congress, are very insulting and overbearing to white citizens, who, as the law is against them, dare not resent wrongs. It is truly surprising that men with only Caucasian blood flowing in their veins, should be so destitute of respect and sympathy for their own race as to pass laws under which negroes can, without fear of punishment, insult and abuse whites, male as well as female.

Voters of California, if opposed to the state of affairs existing in the city of Washington, briefly but truthfully sketched above, you must rally to the polls in September next, and vote down the Fifteenth Constitutional Amendment.—*Examiner.*

A DRUNKEN man, walking along the street at night, with his head thrown back, looking at the moon with sovereign contempt, was heard to exclaim: "You needn't be so proud, moon. You are full once a month, and I every night."

DEFENCE OF DESPOTISM.—The *Alta* newspaper and the entire of the Republican press and party, uphold the Federal military at Jackson, Mississippi, in their assumption of the functions of the civil authority in the case of Yerger, a prominent lawyer, for killing Crane, a Federal Colonel. The circumstances were succinctly these: Crane assumed that Yerger was delinquent for municipal taxes on a piano in Yerger's house, which he was told did not belong to Yerger. Notwithstanding this information he seized upon the piano, and five days afterwards Yerger, in remonstrating with him for the seizure was struck by Crane over the head with a stick. Yerger retaliated the blow by stabbing Crane with a knife, and he died of the wound. The military, in defiance of the civil authority, arrested Yerger and persist in trying him before a military commission. The Constitution of the United States and the Constitution of every State declare that the military shall always be held subordinate to the civil authority, and that no man shall be deprived of life, liberty or property without due process of law, yet the entire of the Republican party throughout the country, including the U. S. District Attorney approve this outrage upon the vital principle of liberty, which underlies our frame-work of government, and General Grant, the President of the United States, approved the decision of the Attorney General! A citizen of Texas had an altercation with a negro, and the negro was killed. The citizen was tried before a military commission, convicted and hung. This was the case in which the Attorney General gave his decision sustaining the military, and which Grant approved! That the people manifest no alarm at such a flagrant assault upon public liberty as this, by the highest functionaries of the government, bodes fearfully its complete overthrow. We ask every citizen of California to reflect calmly upon the crisis which they have reached, and take a look downward from the abyss upon which they stand. The same law which is violated in Mississippi and Texas holds its protecting shield over them, and can be disregarded here on the Pacific with equal facility. How any man who values his liberty and hates a military despotism can give his support to a political party that upholds such a despotism, is matter of painful wonderment. How can any man who voted for General Grant continue his support of him since he has approved of the decision of the Attorney General of the United States, asserting that the military has *supremacy* over the civil authority in sovereign States of this Union? We repeat that the *subordination* of the military to the civil authority is the vital principle of liberty itself, without which a citizen of the United States would be as much a *subject* of a despotic government as is a Russian boor, or a subject of the Ottoman Porte. Grant, with a lie revolving in his mind, and his heart pulsating with duplicity, said "*Give us peace,*" and instead he gives us military domination. The party that elected and supports him, not to be surpassed in falsehood, call themselves *Republicans*, while they ignore the principles of republicanism altogether, by upholding those who trample the Constitution and laws of the country under foot, as is shown in the case of Yerger and the citizen of Texas. Republicans of California, we hold these horrible truths up to your contemplation. Couple them with the facts that a party is now building up in the United States whose avowed object is to change our government into an Empire—that this party has its organ at New York, entitled the *Imperialist*—that Borie, a member of Grant's Cabinet, contributed money to start this paper—and that the Grand Army of the Republic, a secret organization, numbering four hundred thousand men, are relied upon as the instruments to affect this change—contemplate these facts, we say, and ask yourselves if real danger does confront you. Go to the polls in September and vote to continue this party in power, if you will, but you shall not do so ignorantly.

CHANGE OF TIME. — The cars now leave Woodland at 6 o'clock, A. M., 10 A. M., and 5-15 P. M. Leave Davisville 8 o'clock, A. M., 4 P. M. and 8 P. M. The officers of the road are accommodating and prompt, and will shortly put on the best passenger cars.

WHEAT MARKET.—On the 8th instant, in San Francisco, wheat was selling at $1 60 @$1 65. Barley, $1@$1 25.

THE FOURTH OF JULY. — The celebration of the 85th anniversary of American independence, in the various towns and cities of California, so far as we can learn, proved a failure. In some places the Republicans refused to unite with the Democrats in the celebration, because they could not be permitted to eulogise as "patriots" such a thief as Beast Butler, and denounce as a "traitor" so illustrious a military chieftain and Christian gentleman as Stonewall Jackson. In some places no interest whatever was manifested. This lack of feeling on the recurrence of this day marks but too distinctly the deep decadence of those sentiments of patriotism and liberty which animated the bosoms of our "rebel" ancestry. In truth, the Fourth of July has ceased to exist but for one class of Americans, and that class is composed of those who are utterly opposed to a government of *force*, for the Declaration of Independence itself emphatically repudiates any kind of government except a government based upon the "*consent*" of the people governed. Such a government as is now maintained by the present ruling party over ten of the States of this Union—a military government *against their consent*, would, unquestionably, be abhorrent to the men who adopted the Declaration of Independence, and is in deadly hostility to every sentiment contained in that immortal instrument. This will not, and cannot be disputed. Then how can any man who upholds the political party that maintains this military government over the Southern States, who has the slightest shadow of respect for his consistency of conduct, participate in commemorating such a day as the Fourth of July? Such men call the people of the South "traitors," and in doing so (in effect) apply the epithet to Washington and those who labored with him. It is not in the power of mortal man to draw a distinction between the two revolutions. Both parties, for cause which they deemed just, renounced their respective governments, in similar manner, with this difference in favor of the people of the South: that Washington and his compatriots were *subjects* of Great Britain, and owed allegiance to the mother government; the people of the Southern States were free and independent citizens of free and independent States, not *subjects* of any power on earth, and guaranteed the right to do what they did in the Declaration of Independence. If the *three* millions of colonial *subjects* were right in renouncing their government, the *ten* millions of citizens of independent States could not have been wrong in doing precisely the same thing. The terms "rebels" and "traitors" were applied to our revolutionary ancestry, and the present ruling party have deemed the example of the English of that day as worthy of their imitation, and have bestowed the identical epithets on the people of the South and all who opposed the war, which, as a matter of course, embraces the patriots and sages who won our independence of Great Britain and established the free system of government under which they were born and reared to manhood. If what we have said be untrue, nothing can be of more importance than that it should be shown to be so. But no! the sycophantic and servile editors of the Republican press, who worm and writhe their dirty way into the presence of those who have favors to bestow, and crawl on their bellies around the footstool of power, will shout "rebel!" "traitor!" as the only response. They know that what we say is unanswerable, and they will not attempt it. On the other hand, if we have spoken truth, nothing can be of more moment than that those truths should be widely diffused. If the sacred heritage from our fathers is to be preserved, the rising generation should be made acquainted with those truths. The present race of spread-eagle Fourth of July orators and northern historians, have stigmatized TRUTH as *disloyal*, and boldly lift their eyes to the face of God and maintain the falsehood of truth, the right of wrong, and the evil of good. Under their teachings we can hardly recognize our glorious form of government, the very names and forms of our sires and sons, and the plainest facts of modern history. We have given our idea of the cause for the lack of interest taken in the celebration of our national anniversary. A radical change must take place in the views of the ruling masses, or before many revolving years our country will be enshrouded in a rayless despotism.

THE DIFFERENCE.—During the late war, as shown by the official reports of the Federal Government, the South captured and held for a greater or less time, two hundred and seventy thousand Federal prisoners, of whom twenty-thousand died in prison. The Federals captured and held as prisoners two hundred and twenty thousand Confederate soldiers, of whom twenty-eight thousand died in prison. The world knows what a howl was set up about the inhumanity shown to Federal prisoners, while by their own showing a much larger number of Southern prisoners were permitted to die in Federal prisons. An association in the North is about to build a monument to the memory of the Federal prisoners who died of inhumanity The New Orleans *Picayune* says a monument for such a purpose would express a monumental lie.

NEW AGE.—We are pleased to greet this valuable organ of Odd Fellowship in a new dress; and we are still better pleased to know that it is in a prosperous condition. It is the organ of the Order in the jurisdiction comprising California, Australia and the Sandwich Islands, and has an extended circulation. Brother Austin has fully met the expectations of all his patrons. He is not only eminent as an Odd Fellow, but he is a true gentleman, and possessed of considerable literary merit.

Chico Correspondence.

CHICO, June 25, 1869.

ED. DEMOCRAT—Having promised to scribble for your paper occasionally, and keep you posted as to what occurs about our little burgh, I now propose to make good that promise. The latest sensation that has stirred our people is a genuine case of hydrophobia, the singular manner in which it was caused, and the still more singular way in which it was cured. As you know, the members of Chico Lodge of Good Templars are in the habit of paying a visit occasionally to Fairview Lodge, some five miles from here. On their last fraternal visit, they were accompanied by a Mr. S., who was represented by his friend H. as being "some on the talk." Well, the trip was made by about an equal number of ladies and gentlemen. The house was filled, and the gentlemen visitors were called on for a speech. Trepidation and a want of confidence in himself to make a speech, overcame Mr. S., and he absented himself from the hall. When his name was called no respone was made, and a committee was appointed to go after and bring him in. Seeing the committee coming he concealed himself in a patch of dry weeds. A vicious dog belonging to one of the committee, seeing a man squatted down and looking suspiciously, pounced upon and bit him on the shoulder. The dog had been slobbering at the mouth for a couple of days and it was thought he was mad. Sure enough on the sixth day from the time S. was bitten he showed evident signs of hydrophobia. His eyes became inflamed, and he shuddered at the sight of water. He said he knew whiskey was good for a snake-bite and he could see no good reason why it should not be good for a dog-bite. He therefore ordered a quantity and drank freely, and had himself rolled tight in a sheet saturated with the article, and strange to say it cured him of hydrophobia. Some of the cruel boys about town started the joke on him that heonly wanted to take a "nip," and fell upon this plan to do so. Be this as it may he is now about and well.

The Democracy have held their convention and nominated their ticket, but there is much dissatisfaction expressed because so many of the candidates were selected from Oroville. If the Republicans make good nominations, and select some of their candidates from Cherokee Flat and Chico, the probability is very strong that the Democracy will be beaten The election of Martin for Assembly is conceded however.

Our town continues to grow with astonishing rapidity. The certainty of the railroad coming here has given it new impetus. There is some talk of a new first-class hotel being put up here. But we now have such a hotel in the Union House. Allen is a mogul at the business. He keeps everything in order about him. Tell your folks if they come up this way to give him a call.

Everybody is on the alert getting up the Agricultural Fair. It is to be on a magnificent scale.

Farmers here are reaping full crops. The yield will be above average.

One of the *on dits* of our town is that Captain De H. will shortly lead a luscious widow to the altar. Another is that in doing so he "flumuxes" a certain Esq. in town. And still another that the "best girl in the world" is not yet prepared to trot in matrimonial harness with a certain John.

Au revoir. M. E. B.

THE REVOLUTION. — In speaking of the early establishment of a monarchy in the United States, the *Imperialist* newspaper in New York, in which a member of Grant's Cabinet is a stockholder, says:

"There is no fear that a civil war will follow the great event to which we look forward with such anxious expectancy. There is little true manhood left in America, and such as there is would not array itself on the side of the Democracy in the event of a struggle. But even if this were not so, we shall revolutionize the Government too rapidly and surely to admit of much resistance from the mob, and when the hour has struck, Democracy, with all its attendant evils, will have passed away."

How are these boastful threats to be carried out? Is it true, as charged, that the Grand Army of the Republic is to be made the instrument through which despotism is to be fastened upon this country? That organization is four hundred thousand strong, and is composed of men who have seen service. They keep up their military organizations, are divided into companies, regiments, etc., and have their officers, just as though they were in active service. They have only to seize their guns and step into line to form a thoroughly drilled and disciplined army, ready for active operations. If it be true that they have entered into a secret conspiracy to make GRANT Emperor, then there is great significance in the words of the *Imperialist*. We can understand how the revolution is to be rapid and sure as to prevent much resistance from "the mob." When their plans are all perfected, General LOGAN, of the Grand Army of the Republic, has only to issue his order by telegraph for the work to commence, and in a few hours the country, from one end to the other, will bristle with four hundred thousand bayonets ready to crush any popular discontent with the new order of things.—*S. F. Dispatch.*

LOOK AT IT SQUARELY.—The Pittsburg *Post*, the leading Radical organ of Western Pennsylvania, sets the negro suffrage question before the public in its true light. It is refreshing to see prominent Republicans taking an intelligent view of the suffrage question. Grant declared that universal suffrage in the South would result in a war of races, and deprecated granting the elective franchise to negroes. Has he changed his views, or he is anxious to provoke a war of races? Says the *Post:*

"It is impossible to separate voting from governing. If we let the negroes vote, nothing can prevent them from governing; and if we would prevent them from governing us, we must deny them the privilege of voting, and we must deny it on the ground that the privilege will result to their injury, and to the injury of the people of the American Union."

The men of our country, whether in Congress or out of Congress, whether whites or negroes, had better make up their minds that where two incompatible races thus come in contact, one of them only can rule. If we are to split up into many separate, and distinct, and disagreeing States, then the negro race *may* rule in some of them, from which the whites must flee. But if we are to be a nation of homogeneous people, a Union of free States, then negroes must not rule in a single State. Instead of encouraging them to dwell upon an impossible idea, it will be the part of wisdom to let all understand the truth, that the whole world may know that the United States Government always has been and always must be a free white man's government, and never a mongrel anarchy like Mexico.

FOURTH OF JULY RENOUNCED.—There was no celebration of Independence Day by Government officials or citizens at Washington City. They acted consistently in not doing so. So we drift into monarchy.

Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

TOWN AND COUNTY MATTERS.

COUNTY COURT—JULY TERM.—Special Grand Jury empannelled and sworn, to act in case of People vs. Powers. Regular Grand Jury for the term empannelled and sworn. Richard Jones, native of Wales, naturalized. Special Grand Jury returned with indictment against Powers—assault with intent to commit murder. E. C. Taylor vs. McMahon—cause dismissed and judgment for defendant for costs. G. W. Bell vs. Amos Matthews—judgment of Court below reversed. Grand Jury presented these indictments: People vs. Calvin Casey—assault with deadly weapon with intent to do bodily harm; People vs. Thomas Ferguson—burglary; People vs. Wm. A. Stewart (colored)—assault to murder. Court ordered bench warrant issued, fixing bail as follows: Casey, $500; Ferguson, $1,000; Stewart, $3,000; Powers, $3,000. Defendants were brought into Court, arraigned, and time given until 3 o'clock P. M. Friday, to plead. Grand Jury presented the following: "We, the regular Grand Jury convened at the July term of the County Court of Yolo county, beg leave to present this our final report. We have found four true bills of indictment and ignored two charges of felony and two for misdemeanor. We have also by committee visited the County Jail and Hospital, and find that the Jail is secure and well kept—also that the Hospital is kept neat and orderly, and the patients well cared for. We beg leave further to report that our attention has been directed to the matter of settlement of the accounts of our former Sheriff, C. H. Gray, and District Attorney H. G. Burnett, and find that their accounts have been satisfactorily settled. We have had our attention directed to the matter of License in the County—have called witnesses and examined the books of the proper officers in relation thereto, and find that no license has been issued for the keeping of billiard tables since June 3d, 1867, and that the Auditor's books make it appear that no money for licenses since August 10th, 1868. But we find that the Tax-Collector has paid into the hands of the County Treasury the money by him collected, and should be so credited. We also find that the Tax-collector has discharged his duty properly, and very generally collected licenses when they became due. We would respectfully beg leave further to report that we have had presented by the District Attorney a petition numerously signed deprecating the keeping open of places of business on the Christian Sabbath; and further, that whilst we, with the petitioners, regret that the evil complained of is one that should be corrected, yet in the absence of a charge being made to us by any of said petitioners, we find that it would be extending the time of our sitting to an unreasonable length for us now to make charges, send for witnesses, and thoroughly investigate the matter, even if we had the power to do so—and therefore do earnestly recommend that all good citizens hereafter close and keep closed his place of business, on the Sabbath day, and advise his neighbors to do the same. D. M. Burns, Foreman." Court adjourned to Friday, (yesterday) 10 A. M.

WOODLAND MAIL SERVICE.—We understand that a petition to the Post-office Department at Washington, praying for a daily mail from Sacramento and San Francisco to Woodland will shortly be put in circulation. As the matter now stands we get but three mails a week from each of those cities—and that, too, while we have railroad communication twice a day with each of those two places. Woodland may properly be considered a first-class town, located in the very centre of the richest agricultural district in the State, and the country around it settling up as rapidly as any part of the Pacific. The amount of business now done here—and it is rapidly on the increase—imperiously demand a daily mail, and our citizens should not cease their complaints until they are allowed one. The daily mail, if granted, should be extended to Knight's Landing via Cacheville. We have heard many persons living in that section of the county say that a daily paper, giving the market reports, was a matter of necessity with them, but there was no medium through which it could be brought to them. We have conversed with the most intelligent citizens on the subject, and they all expressed the opinion that the increased patronage that would accrue from a daily mail would defray the expense of running it. We understand that our fellow-citizen, Frost, designs circulating the petition. He is the very man for that or any other enterprise having in view the public good. He has the "vim," the "get-up-and-get" about him, which makes him invaluable as a citizen.

WOODLAND VS. DAVISVILLE.—Our neighboring town of Davisville is in danger of losing the "belt" which she now wears with such haughty pride. Woodland contests her right to wear that "belt"—she can boast of a few heroes on the shoulder herself, but they are not of the vulgar kind, they can use the scalpel as well as the "mauleys." Trot out some of your *professional* men, Mr Davisville, and let us have a grand and respectable "set-to," which all the world may witness without detriment to their respectability. From a specimen of shoulder-lifting we witnessed on Wednesday evening, and from the debris of doors, show-windows, etc., left to attest the muscular power of one of the combatants, we will go a few newspaper accounts on the Woodland disciple of Esculapius. Turn out a *crusher*; any other kind would not afford our champion genteel amusement, even.

THE RAILROAD.—We have been informed by a gentleman connected with the road that in two or three weeks the cars from this place will connect with every train at Davisville, performing four trips up and four down, which will bring many more passengers to Woodland. Passenger cars will be put on the road in two or three weeks, perhaps sooner. The road will be completed to Knight's Landing inside of four weeks, and to Marysville by October—and thence on to the lovely town of Chico. Before the Fourth of July 150 hands were employed on the road, but that anniversary demoralized and reduced the number to a considerable extent.

THE NEW BRICK.—We learn from one of the parties that the brick building now being erected on Main street, opposite the Christian Church, will have an additional story added to it. In our former notice we omitted the name of our friend Stamp, as one of the parties to the enterprise. The work is now being done jointly by Stamp, Christie, Ruggles & Pryor. They also intend, in conjunction with others, purchasing and removing the wooden structure on the corner, occupied by Dr. Pierson, and making a road to the Depot, so as to divert the travel thence from First street.

ALL HONOR TO NED.—Ned. Boyle, the Deputy Sheriff and Jailor, determined that the 4th of July should not pass without some recognition. On the morning of the 4th, before daylight, he took one of the prisoners from the jail and brought out the gun belonging to the Republicans here and fired the usual salute. One discharge, which he designed for the noble commonwealth of Virginia, fairly made the earth tremble. Had it not been for Ned, we would have had no anniversary in Woodland.

CELTIC PATRIOTISM. — On Monday morning last a crowd of Irishmen were congregated on the corner, next to the railroad track, when one of them said he wouldn't "work for any bloody railroad man on the Fourth of July." Another stepped up and took him a whack on the shoulder, which staggered him, replied—"Be jabers! Jemmie! you express my sintiments. No Dimmycrat will work on the Fourth of July."

REMOVAL. — The tailoring establishment of E. Mast has been removed to the south side of Main street, opposite the Planters' House, where gentlemen can be accommodated with anything in his line that they may wish.

BOARD OF SUPERVISORS.—The Board of Supervisors were in session on Monday and Tuesday of this week. The following is a synopsis of proceedings: A. J. Hall appointed clerk of election for Cacheville Precinct, and Richard Hext appointed Judge of Election for North Putah Precinct, to fill vacancies. In the matter of road from Knight's Landing to Woodland—viewers ordered to make final report on the first Monday in August next. In the matter of Cache Creek road through lands of Stephens and others—viewers granted further time to report. Supervisor Swingle appointed to make such disposition of pest-house and appurtenances at Davisville, as he may deem best. Relief asked for by Wm. H. McNeil, for building bridge across Willow Slough, rejected. Report of viewers of Woodland and Capay Valley road ordered on file and final disposition of case set for first Monday in August. Ordered that rates of toll on Tule Turnpike road be: Wagon and eight animals, $2; wagon and six animals, $1 25; wagon and four animals, 75 cents; wagon and two animals, 50 cents; wagon and one animal, 25 cents; horse and rider, 25 cents; loose cattle 8 cents per head; hogs and sheep, 4 cents per head. On Putah Canyon road: Wagon and six animals, $1 50; wagon and four animals, $1; wagon and two animals, 75 cents; wagon and one animal, 50 cents; horse and rider, 25 cents; loose cattle and horses, 10 cents per head; hogs and sheep, 5 cents per head. Ordered that warrant for $445 75 be drawn on road fund in favor of J. W. Tilly for building bridge across slough at Plainfield. J. I. Underhill, R. B. Blowers and Q. V. Day appointed to view and locate road from C. Coil's farm to G. A. Pearce's, and report at next regular session of Board. Accounts allowed: General Fund—E. Bynum, $55; E. E. Perkins, $18; J. C. Ball, $60; D. D. Hunter, $35 58; Wm. Minis, $588 15; YOLO COUNTY DEMOCRAT, $6. Hospital Fund—P. S. Glasscock, $4 87; Dr. F. W. Hatch, $25; Dr. W. R. Cluness, $84; Gray & Freeman, $19 23; Mrs. Dollarhide, $20; Dr. E. L. Parramour, $52 50; Hoyt & Blucher, $28; J. H. Leland, $22; Dr. A. Strong, $452; Mrs. Cummings, $20; Wm. Roberts, $30; Fleishman & Kaufman, $20. Road Fund—C. E. Keefer, $143; J. W. Tilly, $58 75; Friend & Terry, $43 82; Asa Pettit, $11 25; J. Hoagland, $196 75; Friend & Terry, $79 53. Contingent Fund—Jas. Bithel, $62; J. Carolan, $5 25; A. S. House, $5.

IMPROVEMENTS.—Our enterprising townsman, F. S. Freeman, is now putting up a fire-proof brick warehouse on his lot near the steam flouring mill, on the west side of the railroad track. The building is to be 124 feet by 50, and when completed will add much to the appearance of the town, as well as to the accommodation of our farmers and business men. Messrs. Gray & Freeman are extensive dealers in grain, and all other products of the county. By their liberality and fair-dealing they have obtained the confidence of the farming community, and it is safe to predict for them a successful career in business. Also, our esteemed friend, J. H. Hall, we learn, has purchased the ground intervening between Gray & Freeman's, on Main street, opposite the College Building, and the Old Post Office, on which now stands three wooden buildings. It is his intention, we understand, to remove these buildings and rear up in their stead solid brick edifices, for rent. The position is a good one for business—none better—and he will meet with no difficulty in leasing them. Our old friend has done much towards building up the town, and the desire to perpetuate his memory in this respect seems to increase with his declining years. Well, a man should aim to leave his mark on the world. It will be no trifling satisfaction for him, while living, to contemplate his own works, and even after he has taken his transit to the "undiscovered country," for his children and his grand children to pass along the streets, and, pointing up to the massive edifices on either side, say—*our father did this.* We wish more of our men of capital would imitate the example of our friend Hall. With entire truth we may say—prospering Woodland!

PROBATE COURT—JULY TERM.—B. B. Allen appointed administrator of estate of John B. Allen, deceased. Estate of S. J. Thomas, deceased—final account continued until Saturday. Estate of Geo. W. Powell, deceased—letters testamentary granted to James A. Powell. Estate of Hugh Montgomery, deceased—proof of will made. Estate of Newell Woodward, deceased—Wm. Woodward appointed administrator. Estate of R. G. Arthur, deceased—Evaline S. Arthur appointed administratrix. Estate of Isom Holler, deceased—objections to settlement of final account filed and hearing continued to 17th instant.

AGAIN WE ARE UNDER OBLIGATION.—Messrs. White & McLennan, corner of H and 11th sts., Sacramento, have again supplied us with their unrivalled summer beverage, Hinckley's Pop. If our citizens generally were aware of the cooling and bracing effects of this beverage, they would not do without it. It can be had at almost any of the saloons of our town by leaving orders for it.

YOLO LIVERY STABLE.—W. J. Roberts, Main street, near the railroad, advertises in this paper that he keeps horses cheaper than they were ever kept in Woodland before. See his new ad.

PREACHING.—H. C. Benson, D.D., editor of the *California Christian Advocate*, will preach at the M. E. Church, in this place, on Sunday, (to-morrow) on the subject of Foreign Missions.

FIRST SHIPMENT OF GRAIN.—The first shipment of grain from this place on the Railroad was made on Friday morning—100 tons being taken—200 remaining, and more coming in.

SPECIAL NOTICES.

THE TRUE MEDICAL DOCTRINE.—Nature, when struggling with disease, indicates unmistakeably the kind of assistance she requires. In case of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame, the flaccid muscles, the menancholly visage, inform us as plainly as if each organ had a tongue, that *a medicated stimulant is needed.* It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of Hostetter's Stomach Bitters, a preparation uniting, in their highest excellence, the proprietors of a stimulant, an invigorant, and an alterative. Before three days have elapsed, from the taking of the first dose, a marked beneficial change will be manifest in the bodily and mental condition of the patient. The pulse will be stronger and more regular, the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere, and complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and billiousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms which accompany disorders of the stomach and liver, will rapidly subside. The cold of winter often intensifies these complaints by checking the prespiratory action, by which so much morbid matter is evaporated through the pores in milder weather, and therefore the Bitters are especially useful to the dyspeptic and billious at this season. jy3-1m

PLANTATION BITTERS DENOUNCED.—While the community at large entertain and express the highest opinion of Drake's Plantation Bitters, as an invigorating and restorative preparation, there is one class of society that cannot be induced to regard the famous tonic in a favorable light. The fraction of the body politic referred to consists of mean boarding-house keepers. They say that the Bitters interfere with their pecuniary interests. In former days young men generally were in the habit of indulging freely in bar room liquors, and the result of an overdose of any of those adulterated stimuli at night was a nausea and a distaste for food next day. Many a day's rations was thus saved by the proprietors of the caravansarics in question—but now that the great vegetable stomachic has, to a considerable extent, supplanted all the unmedicated stimulants, and almost every young business man keeps a bottle of it by him to give tone and vigor to his system, the boarding-house interest complains that its guests are twice as hearty as they used to be, and that the beefsteaks and buckwheats suffer accordingly. They are, therefore, violently opposed to the use of this agreeable and potent appetizer.

CHOLERA—HOW TO CURE IT.—At the commencement of the diarrhœa, which always preceeds an attack of the cholera, take a teaspoonful of the Pain Killer in sugar and water, (hot if convinent,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœa or cramps continue, repeat the dose every fifteen or twenty minutes till the patient is relcived. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as an internal remedy, has no equal. In cases of Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to bad Sores, Burns, Scalds, and Sprains. For Tooth ache, don't fail to try it. In short it is a *Pain Killer.*

The Pain Killer is sold by all dealers in Family Medicines. jy3-1m

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose.

There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the BEST ARTICLE ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SURUP. A few doses given in time MAY SAVE THE LIFE OF A DARLING CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

Used in bathing, it imparts energy and strength to the system, and gives that softness and delicacy to the skin so much desired by all.

It Removes Sunburn, Freckles and Pimples.

Diluted with water, it makes an excellent Dentifrice, imparting pearly whiteness to the teeth, sweetness to the breath, and renders the gums hard and of a beautiful color.

It should always be used after shaving, diluted with water, as it relieves all inflamation.

MAGIC BRILLIANT!

Direct from Nature's Laboratory.

The best article ever discovered for cleansing and polishing gold, silver, and plated-ware, and all smooth metalic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

To Jewelers and workers in gold and silver-plate, the Electro-Silicon is of inestimable value: the time saved, and the vexation prevented by its use, will forever endear its name to all who have had evidence of its merits.

YOLO COUNTY DEMOCRAT.

OMAHA.

Hast ever been to Omaha
Where rolls the dark Missouri down,
And four strong horses scarce can draw
An empty wagon through the town?

Where every bubble, late or soon,
From frothy substance overflowing,
Is made a very large balloon
By constant and persistent blowing?

Where muddy waters rise and swell,
With fearful and resistless might;
Where fish are caught by sense of smell,
Because they cannot see to bite?

Where sand is blown from every mound,
To fill your eyes, and ears, and throat,
Where all the steamers are aground,
And all the shanties are afloat?

Where taverns have an anxious guest
For every corner, shelf and crack,
With half the people going west
And all the others going back?

Where whisky-shops, the livelong night,
Are vending out their poison juice;
Where men are often pretty tight,
And women deemed a trifle loose?

Where "beats" and "blacklegs" thick as hail,
Are deep in faro cards and vices;
Where real estate is still for sale,
And held at most outrageous prices?

Where theaters are all the run,
And bloody scalpers come to trade;
Where everything is overdone
And everybody underpaid?

If not, take heed to what I say:
You'll find it just as I have found it;
And if it lies upon your way
For God's sake, reader, *go around it!*

A YOUNG BLOOD residing in a village in "York State," not many miles from Syracuse, was the victim of a good joke one Sunday night recently. He was trying to be particularly "sweet" on a young lady, and had paid her a number of visits at the residence of her parents. The old folks had somehow got an idea into their heads that the children were almost too young to "keep company," and conveyed the desired hint by calling the girl out of the room and sending her to bed at nine o'clock, the lady of the house astonishing the young gent by bringing into the parlor a huge piece of bread and butter, nicely spread with sugar, which she presented to him, saying, in her kindest manner, "There, Bubby, take this and run home to your mother; it's time little boys were in bed." The would-be gay young beau hasn't felt as though he wanted any more sweetness from that source since.

A "PEPPERY" YARN.—"I went to the Legislature last year," said a Georgian. "Well, I went to Augusta and took dinner at a tavern. Right beside me sat a member from one of the back towns who had never before taken dinner at a tavern. In front of his plate was a dish of peppers, and he kept looking at them. Finally, as the waiter was bringing on the things he up with his fork and in less than no time soused one into his mouth. As he brought down his grinders the tears came into his eyes. At last, spitting the pepper into his hand, he laid it down by the side of his plate and with a voice that set the whole table in an uproar, exclaimed, "Just lie there and cool."

THAT'S a fact. An exchange pungently says: "Any business firm that has't got sand enough in its craw to expend a few dollars to make its business known to two or three thousand people, ought to pack up and go to peddling peanuts."

SIR B. ROCHE once said, in reference to several persons, all relations to each other, but who happened to have no descndants, that, "it seemed to be hereditary in their family to have no children."

A GEORGIA negro explained and described the ticket he voted, as follows: "Dere was a pictur ob a flag wid a crow or buzzard dat sit on de handle ob um, wid a big bunch ob broom grass in de fore paw."

POLYGAMY is said to be fast dying out in the Sultan's dominions. The Turk of the period finds that the expense of one wife is as much as he can support.

AN Irish editor congratulates himself that "half the lies told about him ain't true."

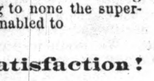
G. J. OVERSHINER,

CARRIAGE AND WAGON



MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order, and keep constantly on hand for sale

Carriages,
Buggies,
Sulkies,
CONCORD-STYLE THOROUGHBRACE

— AND —

LUMBER WAGONS,

— FROM THE —

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

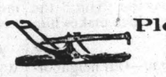
No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!



Plows,
Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and conseqently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
